Polish Government Notified of Their Crime of Attempting to Legalise Genocide

On 1 October 2022, Dr. Diana Wojtkowiak served notice on ten Polish government officials including the Prosecutor General, Poland's President and the President of the Council of Ministers. She has also published it as an open letter to all Polish citizens. By doing so, she has notified government officials of an attempted crime to legalise crimes of genocide against Polish citizens. The attempt is being made through a draft law should it be passed by parliament.
